

Win-Track

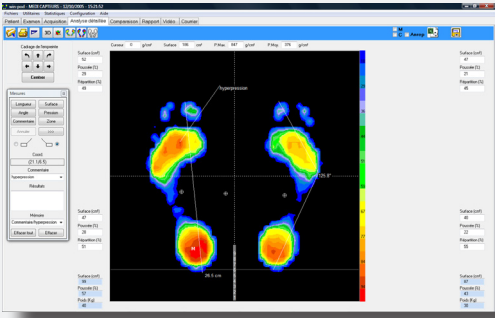

A step ahead

Thanks to the latest Medicauteurs' improvement, the brand new Win-Track is an efficient, high-performance, user friendly, and reliable system. This product is dedicated to the gait analysis.

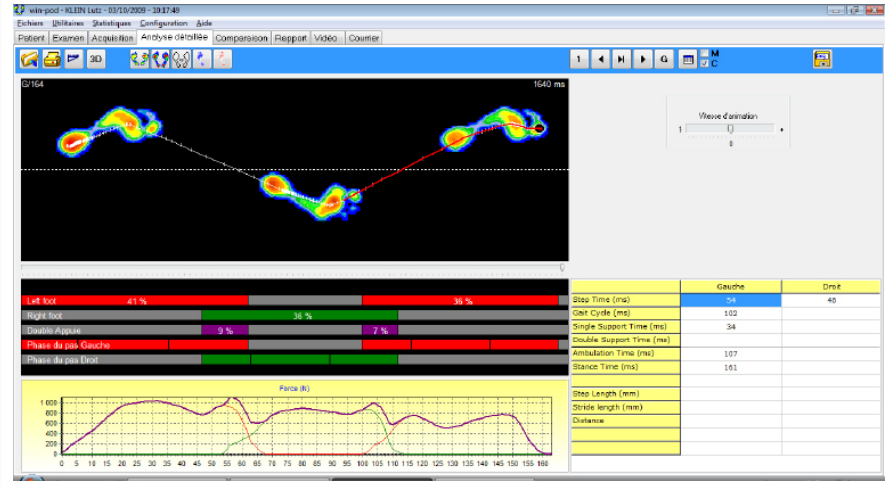

The podometry moves in a new dimension

Static analysis

- Static mapping with calculations and weight distribution
- Wide range of display
- 1:1 printing report
- Exams comparison

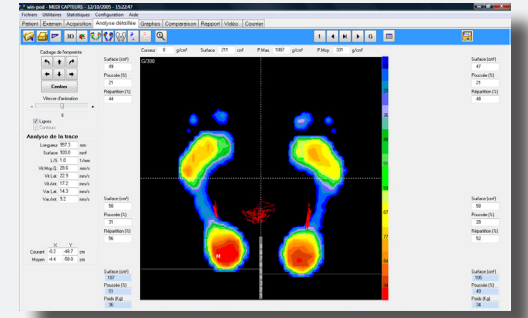

Clinic exam file

- Recording until 200 pictures/second
- Dynamic full picture, calculations, curves
- «Temporo-spatial» parameters
- Foot angles
- Video synchro for 2 cameras

Dynamic analysis

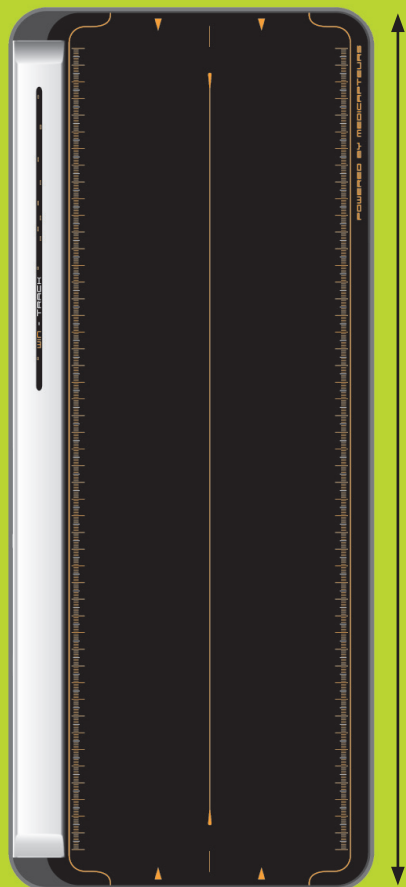

Postural analysis

- Center of pressure displacement (with zoom)
- Romberg

New!

Mail editor with many new options

1616 mm

652 mm

- Design trendsetter
- High acquisition frequency (200 hz)
- User friendly software
- Specific parameters for gait analysis
- Synchronization available with EMG, infrared video cameras etc...

Tech data	
Size (lenght/width/total thickness)	1610 x 652 x 30 mm
Thickness	9 mm
Active area	1500 x 500 mm
Weight	11,8 kg
Sensor type	Resistive
Sensor size	7,8 x 7.8 mm
Sensors number	12288
Mini/Maxi pressure per sensor	from 0.4 to 100 N
Temperature range	from 0°C to 60°C
Interface PC/platform	USB
Power supply	by USB wire
Acquisition frequency	200 pictures/sec
Operating system	Windows XP, Vista

Medicapteurs,
European leader in Electronic Podometry

More than 24 years of experience in engineering of podiatry, posturology and biomechanical equipment

A complete and evolving line of measuring, diagnostic and manufacturing tools

Recognized quality and reliability (CE-medical equipment, EN 46003 Dekra certification)

The technology partner of the foot, insole/orthotic and shoe specialist,

A company born from the filiations of the **Research and High technologies** worlds (LAAS/CNRS)

Over 5000 equipped clients

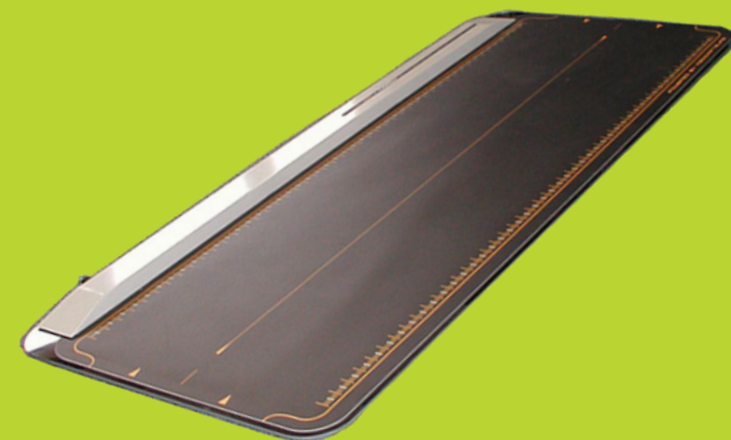

Worldwide notoriety and presence (Europe, United-States, Japan...)

3 locations: Toulouse, Nice, Atlanta

«Les Espaces de Balma» - 18 avenue Charles de Gaulle
Bat. 33/34 - 31130 BALMA - France
